

## Objectives of the Law

**Ensuring** the right to access information pertaining to the management of the Oil & Gas sector in Lebanon.

**Ensuring** the access of all citizens to information pertaining to the development and revenues of the sector.

**Enforcing** regulations to help the State prevent corruption.

**Reinforcing** transparency throughout the entire value chain.

**Elaborating** clear monitoring frameworks for the implementation of this law through the "National Anti-Corruption Agency".

**Allowing** Civil Society Organizations meeting the requirements identified by the law to file complaints.

## The scope of the law

All onshore and offshore petroleum activities

Public and private sector actors operating petroleum activities

## This law is applicable on:

Public authority officials, be they elected or appointed

All public sector officers

Individuals maintaining professional relations with the State or with any public authority official

Contracted companies for Oil & Gas exploration and extraction and their subcontractors
